

How can I access my Customer Proprietary Network Information (CPNI)?

First of all, to have access to an account you must be an authorized user on the account. We will then confirm the identity of callers by one of the following methods:

- Jefferson Telecom will call you back at the phone number of record (your landline phone number).
- Jefferson Telecom will mail information to you at the postal address of record.
- In person, with photo ID.

Authorized Contacts: You can add necessary persons to your account as authorized contacts. Those persons can discuss information and make changes to your account. Authorized contacts will **NOT** be responsible for payment of your account.

Examples of authorized contacts may be if you rely on someone else, such as an adult child, neighbor, or friend, to help you with your account or pay your bill. **Businesses may want to list certain employees as having access to their account.**

Would you like this form to update or replace your existing authorized contacts? Please place check next to appropriate option.
